

Sharing Miracles™ 

# Birth Tissue and You.

**Connect with Sharing Miracles:  
The experts in birth tissue**

Expand Capabilities.  
Enhance Community Service.  
Empower Regenerative Healing.

## We are truly your go-to resource for building a successful birth tissue program

*With more than three decades of experience in organ, eye and tissue banking, the team at Sharing Miracles understands the challenges you face.*

Our focus is providing the guidance and services needed to allow your organization to secure birth tissue donations from hospitals, doctors and mothers. **We offer two strategic pathways for working together: Professional Services and Partnerships.**

We provide **professional services** to help organizations attain the skills and systems to launch and support a successful birth tissue program. Our team can coordinate and provide training to manage every step in the process of acquiring birth tissue, and help with the administrative tasks as well.

Our **Partnership options** offer longer-term, on-going collaboration with OPOs, tissue and eye banks. Sharing Miracles will facilitate and manage every aspect of the donor consent and screening process for birth tissue programs, meeting the demands of this highly-regulated industry.

## Here's Why

### At Sharing Miracles, we specialize exclusively in Umbilical Cord and Placenta donations

- Our leadership team is experienced, CTBS certified, and dedicated exclusively to umbilical cord and placenta donations.
- The staff has the breadth and depth of expertise to help your organization build the new skill sets and programs needed for birth tissue through a wide range of services:
  - professional services
  - donor management
  - training
  - operational support
- At Sharing Miracles, our team is particularly proud of the relationships they've established with hospitals and OBGYNs.
- Sharing Miracles is part of the BioTissue family of companies, a leading provider of birth tissue allografts for surgical and ocular applications, with over 36 years of experience and research in the field.

## Professional Services

### Program Development

Sharing Miracles can help support your birth tissue program by:

- **providing skilled staff** to assist in addressing specific operational needs or launching a new program
- **creating learning paths** for new employees, annual competencies, and remediation to ensure compliance and skill levels
- **navigating the steps required to launch** a birth tissue program, including the systems and processes needed to operate in this highly-regulated industry

### Donor Management

Our experienced coordinators can help in the completion of:

- Informed Consent Documents
- Donor Risk Assessment Interviews
- Donor Suitability Evaluations

### Training

We can train your staff in:

- **Consent Process:** facilitation of informed consent
- **Evaluation:** methods of donor suitability determination
- **Acquisition:** ensuring that the gift of birth tissue is acquired in an aseptic manner and complies with collection and packaging requirements

## Partnership Options

Partnering with Sharing Miracles offers on-going, hands-on management and administrative assistance to your organization on a contractual basis.

In a partnership, we share the daily operation of your birth tissue program. Sharing Miracles would manage and facilitate the consent process, in compliance with all regulations. Building on your organization's strong relationships with local hospitals, you would acquire the tissue. Partnerships offer exclusivity—giving you the opportunity to grow without limits.

Partnership is ideal for organizations seeking to:

- start a birth tissue program
- explore new partner opportunities
- expand current operations
